CENTURY LITHIUM CORP.**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**

(Unaudited - Expressed in Canadian Dollars)

FOR THE SIX MONTHS ENDED JUNE 30, 2025

1. LIQUIDITY AND CONTINUANCE OF OPERATIONS

Century Lithium Corp. was incorporated pursuant to the Business Corporations Act (Saskatchewan) on August 23, 1991. It is a publicly traded company listed on the Toronto Stock Exchange ("TSX.V") under the symbol "LCE" (formerly "CYP") and on the OTCQB market in the United States under the symbol "CYDVF". Century is an exploration and development-stage company engaged in the identification, acquisition, exploration, and development of lithium and other mineral properties in the United States. The Company's primary focus is the advancement and potential development of its Angel Island Lithium Project (the "Project") in Esmeralda County, Nevada, USA.

The head office and records of the Company are located at Suite #1030 – 505 Burrard Street (formerly Suite #1610 - 777 Dunsmuir Street).

These condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes the Company will be able to meet its obligations and continue its operations and realize its assets and discharge its liabilities for at least the next twelve months. The Company does not generate revenue or cash flows from operations and is therefore dependent on external sources of financing to fund its activities and advance its Angel Island project (the "Project"). The Company has not yet determined whether the Project can be economically developed.

As at June 30, 2025, the Company had a cash balance of \$3,944,601 and working capital of \$3,435,437. On August 1, 2025, the Company completed the first tranche of a Listed Issuer Financing Exemption ("LIFE") offering, raising gross proceeds of \$2,867,950 (see Note 12). Management believes that the Company's current financial resources, including the proceeds from the LIFE financing, provide sufficient liquidity to support planned operations beyond the current reporting period.

The Company implemented spending reduction initiatives beginning in the fourth quarter of 2023 and has continued to limit expenditures following the completion of its feasibility study in the second quarter of 2024. Current spending priorities are updating the feasibility study to incorporate potential savings from process changes and other cost savings identified in an internal optimization study completed and activities related to permitting.

The continued operations of the Company and the recoverability of the carrying value of its exploration and evaluation assets are dependent on the Company's ability to secure additional financing in order to fund the ongoing development of the Project and ultimately achieve profitable operations. Although the Company has been successful in raising capital in the past, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be available on terms acceptable to the Company.

2. BASIS OF PREPARATION**Statement of Compliance with International Financial Reporting Standards**

These condensed interim consolidated financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board. These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2024, which have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS"). They do not include all information required for a complete set of IFRS financial statements. However selected notes are included to explain events and transactions that are significant to an understanding of the changes and performance since the Company's last annual financial statements as at and for the year ended December 31, 2024.

(Unaudited - Expressed in Canadian Dollars)

FOR THE SIX MONTHS ENDED JUNE 30, 2025

2. BASIS OF PREPARATION (cont'd...)**Basis of consolidation**

These interim financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany balances and transactions have been eliminated upon consolidation.

These interim financial statements are presented in Canadian dollars which is also the parent company's functional currency. The functional currency for each entity consolidated with the Company is determined by the currency of the primary economic environment in which it operates.

The US subsidiary's functional currency is the Canadian dollar.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement or translation of monetary items are recognized in profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the average exchange rates for the period.

Accounting policies

Except as set out below, the accounting policies, estimates and judgements, methods of computation and presentation followed in these interim financial statements are the same as those applied in the Company's annual financial statements for the year ended December 31, 2024. Accordingly, these interim financial statements should be read in conjunction with the Company's most recent annual financial statements.

Critical Accounting Estimates and Judgments

The preparation of these interim consolidated financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the year. Actual results could differ from these estimates.

Except as detailed above, the accounting policies and basis of presentation applied in the preparation of these interim financial statements are consistent with those applied and disclosed in the Company's audited annual consolidated financial statements for the year ended December 31, 2024.

Approval of financial statements

The Board of Directors approved these interim financial statements for issue on August 14, 2025.

Total	\$94,748	\$297,007

4. RIGHT-OF-USE ASSET AND LEASE LIABILITY

The Company's right-of-use asset is a refining facility lease located in the Amargosa Valley of Nye County, Nevada. On December 16, 2021, the Company entered into a lease agreement (the "Agreement") replacing the initial lease agreement entered on February 7, 2021. The initial term of the Agreement is for forty-eight (48) months, running from December 1, 2021, to November 30, 2025, at a cost of US\$22,500 per month. The Agreement may be terminated with ninety (90) days' notice and extended upon written agreement by all parties. The site is to be used solely for the operation of the lithium extraction pilot plant facility unless written consent is received.

Lease liability

A reconciliation of the carrying amount of the lease liability is as follows:

Balance December 31, 2024	\$294,362
Lease payments	(172,807)
Lease interest (finance costs)	17,274
Balance June 30, 2025	\$138,829

During the six-months ended June 30, 2025, the Company incurred expenditures of \$nil (June 30, 2024 - \$nil) in short term and low value leases that were not reflected as right-of-use assets and lease liabilities.

The following amounts were classified as current and non-current liabilities:

	June 2025	December 2024
Current portion of lease liabilities	\$138,829	\$294,362
Non-current portion of lease liabilities	-	-

As at June 30, 2025 the total undiscounted amount of the estimated future cash flows to settle the Company's lease liabilities through November 30, 2025, the remaining lease term, is \$143,763.

6. EXPLORATION AND EVALUATION ASSETS (cont'd...)**Claims**

The contiguous Dean, Glory and Enertopia properties collectively comprise the Company's Angel Island Mine Project. Exploration drilling began in 2017.

Glory Lithium Project, Clayton Valley, Nevada, USA

In 2016, the Company entered into an option agreement to acquire a 100% interest in the Glory Lithium Project in Clayton Valley, Nevada. To earn a 100% interest, the Company made US\$162,500 in cash payments (\$212,357) and issued 1,100,000 shares of the Company (issued at a fair value of \$175,000). The optionor retains a 3% net smelter royalty ("NSR") with the Company having the right to purchase 2% NSR for US\$1,000,000.

Dean, Clayton Valley, Nevada, USA

The Company acquired a 100% interest in claims located in southern Clayton Valley, Nevada, USA for US\$140,000 in cash payments and the issuance of 1,050,000 shares of the Company. The optionor retains a 3% NSR. The Company has the right to purchase 2% of the NSR for US\$1,000,000.

Enertopia, Esmeralda County, Nevada, USA

On May 4, 2022, the Company completed the acquisition of the Enertopia Project located immediately adjacent to the Company's Dean and Glory properties. The Enertopia Project owns certain mining claims, which include the right to mine for minerals, access, and any related data, including unpatented mining claims. The underlying royalty holders retain a 1% NSR. Under the terms of the agreement, the Company issued 3,000,000 common shares valued at \$4,890,000 and paid US\$1,100,000 (\$1,418,147) in cash. In connection with the transaction, the Company also paid a finder's fee of US\$105,000 (\$135,368).

Gunman Project, White Pine Claims, Nevada, USA

The Company has a 49% interest in certain claims located in White Pine County, Nevada, known as the Gunman Project. The project is subject to a 2% NSR.

On December 5, 2017, the Company entered into an option agreement (the "Agreement") with Pasinex Resources Limited ("Pasinex"), whereby a previous optionee transferred its option to earn up to an 80% interest in the project to Pasinex.

In order to acquire an initial 51% interest in the project (the "First Option"), Pasinex issued 600,000 of its common shares to the Company, made cash payments of US\$100,000 and had to incur exploration expenditures totaling US\$1,850,000 over the three-year term of the agreement. The Company also granted Pasinex a second option (the "Second Option") to acquire an additional 29% interest by issuing 200,000 common shares, making a cash payment of US\$250,000 and incurring US\$1,100,000 in exploration expenditures within one year of satisfying and exercising the First Option.

On September 11, 2019, and again on November 27, 2020, the Company and Pasinex amended the Agreement, whereby the First Option was extended to December 31, 2022, and the Second Option was extended to December 31, 2024. As a condition for extending the Agreement, Pasinex paid the Company US\$15,000 (\$19,498) and must incur exploration expenditures of US\$200,000 by December 31, 2021. On December 13, 2021, a third amending agreement extended the due date of US\$200,000 in exploration expenditures from December 31, 2021, to June 30, 2022. As

consideration, the Company received US\$20,000 (\$25,849) and recognized a recovery on exploration and evaluation assets in the statement of profit or loss during fiscal 2021.

Pasinex completed the required US\$200,000 in exploration expenditures by June 30, 2022.

On December 29, 2022, a fourth amending agreement extended the deadline for completion of the First Option Conditions of Exercise from December 31, 2022 to September 30, 2023. Pasinex completed the required US\$1,400,000 expenditure commitment during the third quarter 2023 to earn a 51% interest in the project.

Pasinex did not make the US\$250,000 cash payment, issue 200,000 shares to the Company, spend a further US\$1,100,000 on the project and provide a feasibility report by December 31, 2024 required to acquire an additional 29% interest. Therefore, Pasinex no longer has the right to acquire an additional interest in the project.

Goat Claims, Nevada, USA

On May 3, 2021, the Company acquired mining claims in Clayton Valley, Nevada by issuing 49,000 common shares with a fair value of \$75,950.

Water Rights, Nevada, USA

On September 7, 2021, the Company entered into a Water Rights Purchase and Sale Agreement (the "Water Rights Agreement") with Intor Resources Corporation ("Intor"), a wholly-owned subsidiary of Nevada Sunrise Gold Corporation, for the purchase of Intor's Water Rights Permit in Clayton Valley, Nevada (the "Permit"). The Permit allows for the use of water for mining, milling and domestic use.

Consideration paid for the Permit was US\$2,150,000 (\$2,691,445) and the issuance of 546,909 common shares with a fair value of \$973,498.

The original Permit was valid until August 28, 2022, and thereafter annual extensions are made.

Reclamation Bonds, Nevada, USA

As at June 30, 2025, the Company no longer held any reclamation bonds. During the second quarter of 2025, the Company received total refunds of US\$34,288 (\$47,352) related to reclamation bonds previously posted in connection with its Nevada, USA properties. The bonds had been recorded at a historical cost of \$41,774. The refund resulted in a foreign exchange gain of \$5,577, which has been recognized in profit or loss during the period.

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The significance of inputs used in making fair value measurements are examined and classified according to a fair value hierarchy. Fair values of assets and liabilities included in Level 1 are determined by reference to quoted market prices in active markets for identical assets and liabilities. Assets and liabilities in Level 2 include valuations using inputs other than quoted prices for which all significant outputs are observable, either directly or indirectly, and are based in valuation models and techniques where the inputs are derived from quoted indices. Level 3 valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

Financial risk factors

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit risk

Credit risk is the risk of loss associated with a counter-party's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash. The majority of the Company's cash and cash equivalents are held with the Bank of Montreal, a Canadian bank.

Liquidity risk

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when they come due. As at June 30, 2025, the Company had cash and cash equivalents of \$3,944,601 (2024 - \$10,285,367) to settle current liabilities of \$639,912 (2024 - \$1,007,136) and had working capital of \$3,435,437 (2024 - \$9,469,774). All of the Company's financial liabilities are subject to normal trade terms.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates and foreign exchange rates. These fluctuations may be significant.

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)**(a) Interest rate risk**

The Company has cash balances and short-term investments held with financial institutions. The Company's current policy is to invest excess cash in savings accounts or guaranteed investment certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. The Company has \$3,617,013 in interest-bearing savings accounts with banks as at June 30, 2025 (December 31, 2024 - \$5,718,839). A 1% change in interest rates would have an effect of \$36,170 (2024 - \$57,188) on interest income.

(b) Foreign currency risk

The Company is exposed to foreign currency risk on fluctuations related to cash, receivables and accounts payable and accrued liabilities that are denominated in United States Dollars. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks. In addition to cash in US currency of \$57,234 (December 31, 2024 - \$221,631) as of June 30, 2025, the Company has \$130,651 (December 31, 2024 - \$166,022) in liabilities to US payees. A 1% change in foreign exchange rates would have an effect of \$1,878 (2024 - \$3,786) on foreign currency gain/loss.

12. SUBSEQUENT EVENTS**LIFE Financing**

On June 9, 2025 the Company announced a financing under the Listed Issuer Financing Exemption ("LIFE"). The LIFE offering, as amended on June 22 and 24, 2025 allows the Company to raise gross proceeds of up to \$5,000,000 through the issuance of up to 16,666,667 units,

On August 1, 2025, the Company closed the first tranche of the LIFE offering, issuing 9,559,833 units at a price of \$0.30 per unit for aggregate gross proceeds of \$2,867,950. The Company retains the potential for additional tranches up to the total gross amount through August 24, 2025.

Each unit consists of one common share and one common share purchase warrant. Each warrant entitles the holder to purchase one additional common share at an exercise price of \$0.45 for a period of 60 months following issuance.

In connection with the first tranche closing, the Company paid cash fees of \$133,907 and issued 446,355 compensation warrants to finders.

Expiry of Stock Options

Subsequent to June 30, 2025, 200,000 incentive stock options exercisable at \$0.35 per share expired unexercised on August 4, 2025. No shares were issued upon expiry, and there was no impact on the Company's capital structure.
